DELIVERY PROGRAM 2017/2018 – 2020/2021

INTRODUCTION:

Council's Delivery Program 2017/2018 – 2020/2021 has been developed to achieve the strategic priorities identified within the Community Strategic Plan. It replaces the Plan of Management and will identify the activities Council will achieve during the four years.

Council consulted with community members to ensure that Council was pursuing the community aspirations on the future of Walcha. The key initiatives have been incorporated into the Community Strategic Plan and now will reflect in the Delivery Program.

The Delivery Program sits beneath the Community Strategic Plan and details the activities Council will undertake over the next four years to achieve the strategic priorities identified within the Community Strategic Plan.

Sitting beneath the Delivery Program is the Operational Plan which is a 'sub-plan' of the Delivery Plan. The Operational Plan looks at the specific activities which Council will undertake within the current financial year to achieve the commitments outlined in the Delivery Program.

Council want people to be able to easily identify what the community's aspirations are for the Shire as well as being able to see how we will be funding these and programming them into Council's activities over the long, medium and short term. Council also wants people to see what will be happening in the long term (15 years), in the medium term (4-5 years) and in the short term (1 year).

Unforeseen circumstances such as storm damage to the road network may, at times, force Council to depart from or amend the Program. Similarly, commercial opportunities may arise of which Council must take advantage. At all times however, Council will act in what it sees are the best interests of the community.

The Council strives to be responsive to the wishes of the community and the public exhibition period of the Program provides an excellent opportunity for residents to make those wishes known. Please take advantage of this opportunity.
